

Telesio-Galilei Academy of Science

Dear Members.

A gang of well organised individuals have issued a criminal and slanderous campaign against our Telesio Galilei Academy of Science in order to cause the maximum amount of embarrassment and to perpetuate permanent damages.

This gang of organised criminals use pseudo names in an attempt to mask their identities and points of origin.

We have appointed lawyers with a view to issue an injunction and stop the delinquents. Currently it is not clear if the motivations are political in nature or a simple extortion attempt. We understand that the Police in France and the USA are already on the case.

We have reported the criminal activities to the Interpol, FBI, CIA, Google, and all other Web Hosting and relevant Surveillance Authorities to assist in bringing the gangsters to justice.

Detailed below is one example of their peculiar and bizarre propaganda linking TGA Board of Directors and Members with International Politics and Government bodies in some sort of International conspiracy.

Until removed.
