## **Fraudulent Prime Minister starts up “The Big Society Fund” – Part 3 – Giant Fraud**

You know what they say you can “Smell a Rat”  
This should be renamed the “Big Ponzi Capital

It was only a matter of time before Gordon and I realised that we had indeed opened up a hornets nest when we started investigating “The Big Society Rip Off” and it just simply kept opening up more and more doors to massive fraud and corruption that has crippled this country and its economy and believe it or not the bastards are so arrogant they are still at it.

Prime Minister, David Cameron, Deputy Prime Minister, Nick Clegg and leader of the opposition, Ed Miliband all form part of the problem in that they are all either involved or all are aware of the extortionate rape of this country and the associated tax evasion and do absolutely nothing about it!!

You will recall we paid a visit to one “Boiler Room” that had links to his so called “Big Society Capital” and those two notorious designers Lord Wei (an apparent Christian and do good-er) and his fraudulent side kick Lord Cohen.

The elaborate corporate headquarter situated at 788-790 Finchley Road, Golders Green, London has in its time housed some massive and pretty impressive companies ranging from Truck Sales – Oil/Gas Companies – Administrative Services etc and yet the investors and potential clients of these companies did not realise that this building is simply a “Boiler Room of Virtual Companies” that have only one ambition in life and that is to take your money and run.

Since we first exposed this extremely fraudulent address some of these very powerful non existent companies have done a sort of “Cut and Burn Run” resulting in a convoy of furniture removal vans taking away their office equipment and their thousands of fake documents and files of those suckers that gave up their life savings. That, needless to say, is not the case because the place is empty and is merely a sort of “Post Box Company HQ”.....so some are now on the run and will simply re emerge under a different name and at another different “Boiler Room”. The biggest problem is that even if the Serious Fraud Office or the Police carried out such an investigation/raid they may or may not put away a few of the smaller fish and close the case!! It is this mentality wherein lies the problem because they do not follow the money trail and watch for these same con men re emerging under a different company name using a variation of their name in another boiler room. Gordon and I know much more about this address and others in Finchley Road but for the time being we will focus on 788-790 and just see what turns up. What I found incredible is just how gullible investors are in taking the bait from these fraudsters who sometimes put on the most impressive presentaton by Video/Power Point and blind them with what is basically old data from an old

disused gold mine or some out of the way oil exploration programme in the waters off Greenland or the Falkland Islands (nudge nudge wink wink).

Then all you need is your Prime Minister or some other senior MP or House of Lords representative to back them up with equally as much bullshit and before you know it the share price of this non existent lucrative find as gone through the roof and billions more are poured into the non-existent project.

Let me give you a typical example of deception before I hand the floor over to Gordon Brown for a greater insight into this extremely busy corporate empire that never opens its blinds!!

**This is apparently the headquarters of UK Lorries LTD,  
788 – 790 Finchley Road,  
LONDON,  
NW11 7TJ**

**This is the actual address and building of this massive corporate empire known as 788-790 Finchley Road NW117TJ, London which is a "Boiler Room" for many such companies.....note the blinds are closed.....oh but wait a minute did I see some movement?.....thought I saw the blinds move to one side!.....must have been a rat.....you certainly guessed right it was one of those endangered species called a "Corporate Rat" !!!**

**Can you imagine that this same building/address is the home to many oil and gas companies who have always been noted for elaborate building and facades, exotic reception areas and massive boardrooms etc.....how can they all manage to fit their management in this pathetic board room!!**

**Can one imagine a couple of very senior politicians such as Lord Michael Howard or Peter Lilley MP (known fraudsters) pulling up in their chauffeur driven cars.....where are they going to park?.....who will serve them with morning tea and biscuits?**

**I guess you, the British public, are asking why isn't anyone doing anything about this? .....a simple and fair question don't you think?.....the answer is equally as simple.....because the leader of the "Rat Pack" is our own Prime Minister and many other MP's and Members of the House of Lords who are all at it!**

**So by now you are saying "That's a bit far fetched".....well not really because I would expect you to say to me "either put up or shut up"....so what about giving you a sample of some of those that have grey clouds over their heads:**

I call this exclusive group "The Nuclear Bomb crew" who were either involved or knew of a covert, under the radar, sanction busting deal to illegally purchase 3 "Battlefield Ready- Gravity Dropped – Nuclear Bombs" that had been designed, built and tested by Israel/South Africa....obtain tax payers money via the DTI and put it into the hands of private investors (some of those above) and including our own current PM, David Cameron.....then allow the bombs to be stolen and sold on the black market..... which resulted in not only going to war with Iraq but also the on going conflicts that have extended from that war.

It is also fact that £17.8 million of this money got siphoned out of that tax payers money and ended up in the Conservative Party Election Fund....maybe you do not believe me....well folks here it is and to this day the bastards have never had to account for it....in actual fact it was our dear Ken Clarke who has now sewn it all up by issuing "Gag Order's" on all those that could be implicated in this and other illegal arms deals.

I guess you do not believe this story.....why don't you check it out yourself it is written in Hansard 22nd June 1993, and starting at Col. 197 when Lord Doug Hoyle raised the issue in the House as follows:

[www.parliament.uk](http://www.parliament.uk)

Mr. Hoyle If the hon. Gentleman will allow me, I shall tell him what information is now given to us. We understand the expenditure and what Tory central office

receives. In 1992, central office received £20.7 million. When we asked about that and about company donations, the Tory party told us to look at company accounts. I repeat: in 1992, the Tories received £20.7 million. When the records were checked by Companies house, only £2.9 198million was shown in company accounts. That means that there is a deficit of £17.8 million. We want to know where that £17.8 million came from.

Mr. Tim Smith The hon. Gentleman has made the suggestion about the accounts of the Conservative party that was made by a member of the Select Committee last week : that no accounts had been published between 1979 and 1983. They were published, and I undertook to send copies to the Select Committee.

Mr. Hoyle I gave way to the hon. Gentleman because I expected him to tell me where the difference of £17.8 million came from. I shall give way again to him. I am told that he is a treasurer of the Conservative party. I give way to him now so that he can stand up and tell us where the £17.8 million came from. Does the hon. Gentleman care to do that? I am waiting. I do not think that we shall get the information from the horse's mouth. We certainly did not get it from the Secretary of State.

Now you can see some more of those that have very sticky fingers:

Baroness Valerie Amos Sir Steve Robson Sir S E Jonah Baroness Chalker

Sir Richard Needham Lord Norman Lamont Lord Peter Truscott Lord Crickhowell

Dr. Liam Fox Lord St John Lord Mandelson Baroness Thatcher

I will simply call this the "Rogues Gallery"

Last but not least a portrait of all those that Gordon and I briefed personally and gave them paperwork to prove it.....they also should be locked up for not acting upon the evidence provided.....especially our Local MP's Margaret Beckett and Chris Williamson who have both neglected in their duty of care towards their constituents who put them in office.....the latter two should be removed from Parliament based on this factor alone!! You will clearly see in the pictures below Gordon and I not only handing out the evidence to these very senior MP's but also recording it in photographs and by video.

I call these the "No Action Team"

Someone once said to me how come Gordon and yourself have not form a company to help potential investors check out such companies as to if they should or should not invest in a Gold Mine or Remote Area Oil/Gas Exploration Project!! I guess it certainly makes sense but then who is going to write about it? One could form such a company with so much ease and charge a nominal sliding scale fee based on the level of investment.....not a bad idea and certainly could take the "Risk" out of the term "Risk Capital".....the problem is it's so rife it would be a very difficult job to stop all of the fraud in this country but at least it would be a starter!! It is now time to hand the floor over to Gordon Bowden for yet another incredible Exposé that will blow your socks off and involves extremely large amounts of money, including that of the "Tax Payers."

Start of Gorden's communication:

Peter.

For the record. More news on:

Well the FSA know all about them, they fined the Directors £31 Million.

However, for 7 years, since 2005 Companies they ran had been reported to the Police by defrauded investors for FRAUD, THEFT and MONEY LAUNDERING but these accusations were ignored by the Police fraud EXPERTS who declared with CONTEMPT "This is a Civil Matter"

Had the EXPERTS, the "Plonkers" with their OXFORD Degree's bought perhaps from "DELL BOY" to get senior Police jobs at the SFO, SOCA and FSA used one DORMANT braincell and spotted the common affiliation to

So, given "Our" experts are constantly patting themselves on the back, with the occasional arrest and protecting our gutted Banks, Financial Institutions and millions of private investors, how is it even a 10 year old with a junior school 2 Gold Star Award could identify those very same Companies were networked by the same corporate registration Company and Administrator identified with THOUSANDS of financially collapsed Companies where the Directors are "Blow me Down" are recorded at the VERY SAME ADDRESSES but allowed to continue, registering Company after Company after Company.

Given I know what will happen to these Companies above, they are nothing more than massive fraud vehicles, Many if not ALL of the Senior Officers at the SFO, SOCA and FSA should be arrested and prosecuted for protecting INTERNATIONAL ORGANISED CRIME running in the UNITED KINGDOM

Gordon Bowden.

OK so by now you are all pulling your hair out and saying to yourself how can this be true....how can such massive fraud and corruption exist and be overlooked.....it's so simply really because it is on such a massive scale it is beyond the average persons mindset to understand it.

Can you imagine a simply exercise like selling fuel to the forces in Afghanistan or anywhere else and the company that has the contract being a virtual company.....can one even imagine the implications?

I can assure you that there is much more going on and this is only the tip of the iceberg.

To put all this into true perspective.....all this fraud and corruption is basically the backbone of the New World Order who find it incredibly easy to carryout such activity with the added ability to close down any company or country whenever they so wish.

It is such activity that is bringing the economy down by taking away the ability of any country to stop them or even tax them.....can you imagine that under the proceeds of crime how much money and prosperity they could recover.....we are talking here about billions if not trillions.....imagine that amount of money being pumped back into our economy.....we would never have to cut back on essential services, we would not have to hit the pensioners and the poor.....we would never have to hike up student fees and we would be not only a financially stable country we would also be recognised as being a good ethical trading partner.....as it stands at the moment that is far from the truth.....just to add insult to injury we have the New World Order via its World Bank/IMF bully boys suggesting the following:

International Monetary Fund (IMF) has called on the British government to raise retirement age again in a bid to save the country from financial ruin!!!!

Now maybe you can see the true axis of evil at work.....May I suggest that next time you all take to the streets for your peaceful protests you do so outside one such "Boiler Room" at 788-790 Finchley Road, Golders Green in London or any of the following "Boiler Rooms" at Arlington Associates, 22 Arlington Street (next to the Ritz in London) or Lonhro on the 2nd Floor at 25 Berkeley Square in the Cadbury Schweppes building or 55 Gower Street or Vintners Place at 68 Upper Thames Street or 180 Great Portland Street.....oh boy the list is too long to put in one article.....one could say around 300 of them in London alone would be a good starter!!!

But hey listen guys.....do not worry about all the trillions going offshore or wherever because at the end of the day you are paying for it and at the same time watching this countries "once proud home of high tech" going down the toilets.....this is what the New World Order wants.....break up society....break up relationships.....don't give kids an education....don't give jobs....close down our industrial bases and set them up overseas (such as 50% production of Rolls Royce engines now going to Singapore) or (our high tech railway production going into Europe).....close down even more companies and make everyone dependant on the state.....encourage alcoholism and drugs.....brng in the chip and pin and bobs your uncle you will have a state of brain dead dumb f—— who will all become subservient to a "Police

State".....not to mention the fact they want a 80-90% reduction in the world's population by whatever means!!!!

One can see a perfect example of the New World Order at its best when its subsidiary, the United Nations, implemented Agenda 21 along with that other scam they call "Global Warming" that will just about finish off the world as we currently see it.

Just remember when you heard all the sheeples around "Big Brother" will be watching over you to make sure you do not break out of the "Kettling" !!!

All I can say is there will be a huge demand for shepherds in this country to take care of all the sheep that accept this situation.....oh well back to your censored TV and your "Soopies."
